Vice Chancellor's Appeal regarding Coronavirus disease

Dear Students, Parents and members of CSJMU Community,

As we all are aware of the current situation of Coronavirus disease in the country, it is important for CSJM University, Kanpur to take all necessary precautions for the well-being and good health of all those who are associated with the University. Hence, as per the Govt. of Uttar Pradesh instructions, the academic activities in the University are closed.

The most important way to prevent the disease from spreading is social distancing. I appeal to all students, teachers and parents to avoid public places, and to remain inside to protect yourself. Avoid shaking hands and hugging. Wash your hands frequently, avoid touching eyes, nose and mouth, and practice respiratory hygiene.

It is our duty to alert our healthcare provider immediately if we think we are feeling unwell, even with mild symptoms such as headache and slight runny nose, including if we have contacted someone with the virus and have signs/symptoms of infection.

During this period when colleges are closed, you can try yoga and meditation which will help you to remain calm.

I also request that the students can continue their learning by making full use of the available Digital / e-Learning Platforms (example SWAYAM) during this period. SWAYAM is the national online education platform hosting online courses covering higher education (under-graduate, post-graduate programs) in all subjects. You can visit <https://swayam.gov.in/> for more information on this.

All students, teachers and parents are requested not to panic as CSJMU is committed to ensure safety and security of students as also the maintenance of academic calendar and all possible steps will be taken in this regard.

Neelima Gupta
Vice Chancellor
